

PCB TERMINAL BLOCKS, 3.5MM/3.81MM PITCH, STRAIGHT SOCKET

FEATURES

- Low-profile pin strips with compact pitches
- Plug-in direction vertical to the PCB
- Versions with and without a threaded flange
- Versions with engagement noses for locking plugs with self-locking flanges
- Versions with Lock & Release locking and threaded flange can be used with plugs with Lock & Release or with screw flange

PCB TERMINAL BLOCKS, 3.5MM/3.81MM PITCH, RIGHT ANGLE SOCKET

FEATURES

- Low-profile pin strips with compact pitches
- Plug-in direction parallel to the PCB
- Versions with and without a threaded flange
- Versions with engagement noses for locking plugs with self-locking flanges
- Versions with Lock & Release locking and threaded flange can be used with plugs with Lock & Release or with screw flange

PCB TERMINAL BLOCKS, 3.5MM/3.81MM PITCH, PLUG

FEATURES

- Flat design of the MC 1,5 connector range
- Generously dimensioned wiring space
- Plug-in direction parallel to the conductor axis
- Versions with and without screw flanges and Lock & Release levers
- Individual position coding by removing the coding tab and connecting the coding profile to the header
- Versions with a pullout aid can be provided; cables can be fixed to the pullout aid using cable binders
